Founded in 2001, JUMP Math is a charitable organization that produces evidence-based classroom math programs. Third party evidence shows that JUMP programs accelerate math learning for students across the learning spectrum. **JUMP Math’s mission is to enhance potential by encouraging an understanding and love of math in students and educators.** We are driven by the belief that all students can learn math, all teachers can teach math and everyone can love it.

“JUMP Math takes the tears out of teaching math. Students feel successful immediately and begin to believe that they can 'do' math. The lessons are easily followed - and even assessment is provided.”

(Rosanna Tiberio, JUMP Math Book Fund Teacher 2016)

**FEATURES**
- K–8 mathematics resource and materials for teachers and students
- Aligned to curriculum standards in Canada and USA
- Balance of guided discovery and explicit instruction
- Provides teachers with structured, curriculum-aligned lessons and assessment tools
- Fosters confidence and success for both students and teachers

**RESULTS**
In a randomized controlled study conducted by SickKids Hospital, math knowledge of students who were taught using JUMP Math grew at **twice the rate** of students using the incumbent mathematics program.

Dramatic gains found in a Grades 5/6 classroom using JUMP Math, moving students from the 54th percentile to the 98th.

**IMPACT***
- **92%** of teachers reported that JUMP Math increased their students’ confidence and achievement in math class
- **96%** of teachers would recommend JUMP Math to a colleague

*From 2015-2016 Book Fund survey of 112 teachers
**Students Reached in Canada, the US, and Spain**: 172,500

**Indigenous Students Served**: 18,000

**Students Awarded Jump Math Resources**: 4,622

**Tutors Awarded Resources**: 197

**Teachers Trained**: 1,750

**Social Return on Investment (SROI)**: $16:1

**Revenue**: $4.64M

**Expenses**: $4.44M

**Achievements**
- 197 tutors awarded resources
- 1,750 teachers trained
- 4,622 students awarded Jump Math resources
- 172,500 students reached in Canada, the US, and Spain
- 18,000 indigenous students served
