

# Table of Contents, Essentials B

<b>Tutor Introduction</b>	1
Welcome to JUMP Student Essentials	2
Working in Communities	3
An Approach to JUMP Math Tutoring, Haroon Patel	7
Hints For Helping Students Who Have Fallen Behind, John Mighton	12
<b>Teaching the Introductory Unit</b>	14
The Purpose of the Introductory Fraction Unit	15
The Introductory Unit (Fractions)	26
<b>Mental Math Unit</b>	34
Why Mental Math?	35
Addition and Subtraction	36
How to Learn Your Times Tables in a Week	42
Part 1 Number Sense	45
Part 2 Number Sense	48
<b>Lessons</b>	49
Identifying Numbers	50
Identifying Numbers	52
Identifying Numbers Cont'd	54
Writing and Reading Number Words	56
Writing Numbers	60
Ordering Numbers	63
Ordinal Numbers	64
A Note for Patterns	67
Finding the Gap: Part 1	68
Preparation for Increasing Sequences	71
Increasing Sequences	72
Finding the Gap: Part 2	74
Increasing and Decreasing Sequences	76
Preparation for Decreasing Sequences	78
Decreasing Sequences	79
Representing a Number Using a Number Line	81
Adding and Subtracting Using a Number Line	82
Repeating Patterns	85
Extending Repeating Patterns	88
Finding Cores in Patterns	89
Extending a Pattern Using a Rule	91
Identifying Pattern Rules	93
Introduction to T-tables	95
Place Value - Ones, Tens and Hundreds	98
Place Value	101
Representation with Base Ten Materials	102
Representation in Expanded Form	104
Representation Numbers – Review	107
Comparing Numbers	109
Differences of 10 and 100	112

Counting by 100s	114
Regrouping	115
Adding 2-Digit Numbers	118
Adding with Regrouping (or Carrying)	120
Adding 3-Digit Numbers	126
Subtraction Review	128
Subtracting 2- and 3-Digit Numbers	129
Subtracting by Regrouping (or Borrowing)	131
Pennies, Nickels and Dimes	135
Quarters	136
Counting by 2 or More Coin Values	137
Counting by Different Denominations	138
Least Number of Coins	140
Dimes and Pennies	142
Parts and Totals	143
Parts and Totals (Advanced)	144
Sums and Differences	148
Multiplying by Skip Counting	151
Adding Sequences of Numbers and Multiplication and Repeated Addition	153
Arrays	159
Multiplying by Adding On	162
Multiples of 10	164
Advanced Arrays	165
Distributive Property	167
Mental Math – Doubling	168
The Standard Method for Multiplication	170
Regrouping (Multiplication)	171
Sharing - Knowing the Number of Sets	173
Sharing - Knowing How Many in Each Set	175
Sets	177
Two Ways of Sharing	179
Division and Dividing by Skip Counting	181
Division and Multiplication	187
Knowing When to Multiply or Divide	189
Remainders	194
Round to the Nearest Tens and Round to the Nearest Hundreds	199
Rounding	202
Decimal Tenths	204
Place Value (Decimals)	207
Decimal Hundredths	210
Tenths and Hundredths	212
Changing Tenths to Hundredths	214
<b>Black Line Masters</b>	<b>216</b>
Circle the Numbers	217
Quantities (1)	218
Quantities (2)	219
Quantities (3)	220
Quantities (4)	221
Quantities (5)	222
1-cm Grid Paper	223
2-cm Grid Paper	224
Game Cards	225
Dominoes	226

Counting Starred Squares (1)	227
Counting Starred Squares (2)	228
Counting Starred Squares (3)	229
Blank Starsweeper Grids	230
Counting Cubes	231
Counting Dots	232
Number Word Search	233
Number Words Crossword Puzzle	234
Recognizing Number Words	235
Spelling Number Words	236
Line Up (1)	237
Line Up (2)	238
Line Up (3)	239
Ordinal Match	240
Place Value Cards	241
A Larger Hundreds Chart	242
Game Cards	243
I Have — Who Has — Addition Cards (1)	244
I Have — Who Has — Addition Cards (2)	245
I Have — Who Has — Addition Cards (3)	246
Cut Out Coins	247
Adding or Trading Game	248
A Blank Hundreds Chart	249
