

jump math™

MULTIPLYING POTENTIAL.

Founded in 2001, JUMP Math is a charitable organization that produces evidence-based classroom math programs, shown by third party research to accelerate math learning for students across the learning spectrum. **JUMP Math’s mission is to enhance potential by encouraging an understanding and love of math in students and educators.** We are driven by the belief that all students can learn math, all teachers can teach math, and everyone can love it.

FEATURES

- K–8 mathematics resource and materials for teachers and students
- Aligned to curriculum standards in Canada and USA
- Balance of guided discovery and explicit instruction
- Provides teachers with structured, curriculum-aligned lessons and assessment tools

JUMP Math breaks concepts down, enabling you to easily fill in the gaps in students' foundation and basic math knowledge. This process increases students' success and confidence!

The New York Times

IMPACT

94% of teachers reported that JUMP Math improved their students' performance in math class

92% of teachers would recommend JUMP Math to a colleague

**From 2016-2017 Book Fund survey of 125 teachers*

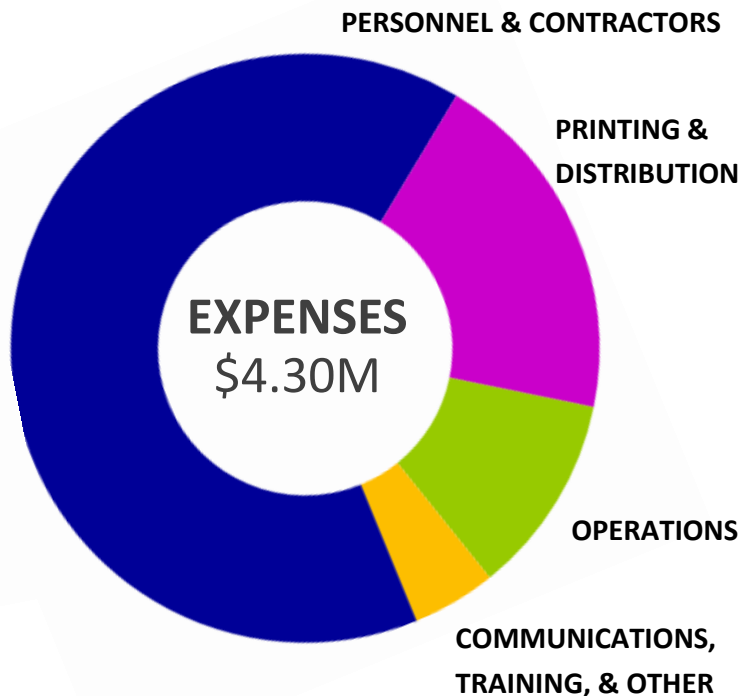

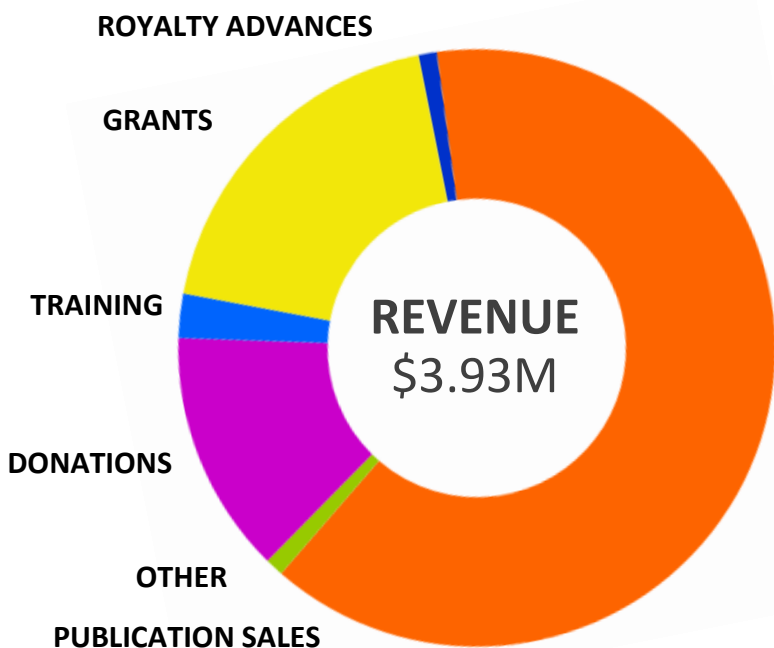

JUMP Math has improved my students' perception of themselves as math learners. They enjoy working in the practice books and actually ask to work on JUMP Math during their choice time.
